CAUTION!!! - *The most important requirement for a successful installation of this, or any, S&W chassis component is that you take your time and use good common sense. Check & recheck all measurements before cutting or welding. If you have any questions, before or during the installation - STOP - and call our tech line at 610-948-7303 and we will gladly explain in more detail any step in the installation.*

Please read complete instructions thoroughly before beginning!

Installation Instructions for Rear Spoiler Kit - Part Number 95-700

Thank you for purchasing a S&W Race Cars Universal Rear Spoiler kit. The photo on this page shows this kit installed on an early Camaro, but this spoiler is designed as a universal kit and can easily be fitted to most deck lids with minimal effort and common hand tools.

Enclosed with your spoiler are templates for several popular body styles. If you can use one of the supplied templates, cut it out and match it to your deck lid, trimming if necessary.

Next, transfer the pattern on to the spill plates enclosed in your spoiler kit. Cut out the spill plate, round and smooth the edges, and assemble you spoiler with the stainless steel hardware enclosed with you kit. An exploded view of the assembly is on the next page.

If the templates supplied do not fit your application, use pattern paper or a section of the shipping box to create your own pattern.
